

EXPERIENCE

- SettleKit** October 2025 – Present
Software Engineer
 - Built the entire MVP backend from scratch using Supabase, designing the database schema, server logic, and auth flows to support a fast, reliable full-stack web app.
- Twitter Community Archive** October 2025
Software Engineer
 - Built infrastructure for the first open source Twitter archive
 - Implemented and tested semantic search, clustering, standing up server to host tweet vector embeddings
- Fractal Tech AI Accelerator** September 2025 – Present
Software Engineer
 - 60+ hours a week of creating and demoing cutting edge implementations of LLMs and other AI tools
 - Exploring the frontier of ai agent coding workflows
- Arias Research Lab** May 2024 – December 2024
Undergraduate AI Research Intern
 - Designed and trained a neural network in Python to assist a sensor in detecting excess nitrate levels in farm soil
 - Increased the accuracy of soil sensors by 20%
- Princeton Visual AI Lab** June 2023 – August 2023
Intern
 - Designed an algorithm to detect DeepFake videos in Python
 - Implemented a convolutional neural network and Eulerian Video Magnification to achieve a detection accuracy of 83%
- Quattron Kids** June 2024 – May 2025
Python Instructor
 - Taught Python classes of up to 10 students (ages 9 - 15) over zoom
 - Utilized Google Slides and Google Collab to present fun, interactive, project based lessons
 - Communicated with parents to tailor lessons to the needs of each learner

EDUCATION

- University of California, Berkeley – Berkeley, California** August 2021 - August 2025
Bachelor of Arts in Applied Math, Cognitive Science

TECHNICAL SKILLS

- Programming & Tools:** Python, Fullstack React, SQL, Java, Matlab, JavaScript, HTML/CSS, React Native, Swift, TensorFlow, PyTorch, OpenCV, Pandas, NumPy
- Machine Learning & Statistics:** Regression, probability distributions, Bayesian inference, hypothesis testing, scikit-learn, neural networks, optimization
- LLMs & AI Applications:** AI model integration with vercel AI SDK and 11 labs for speech, prompt engineering, using Claude Code, Semantic Search
- Other Tools:** Excel, PowerPoint, FL Studio

Music

- Raccoon Hospital:** <https://open.spotify.com/artist/0DniROsUAgyZmEj3tVNeT1>
- Hell is a Teenage Girl:** <https://open.spotify.com/artist/6SIY1EaHYUWRXVn3Po1lxg>
